MOBILIER

2024 · 2025

WINTER Collection

Designed for your life

In an increasingly mobile society, where we expect to model spaces to suit our ways of living, where we select objects that make everyday life easier, LAFUMA MOBILIER has always been ahead of the game. The insistence on durability, comfort and ease-of-use constitute the basis of each LAFUMA MOBILIER product.

Ever since our first collection in the 1950s, our outdoor furniture has always been thought, designed and manufactured in our Anneyron plant, in the Drôme region in France.

LAFUMA MOBILIER «LIVING HERITAGE COMPANY» LABEL (EPV)

This label granted by the State in 2020 recognizes LAFUMA MOBILIER's knowhow in working with metal tubes and stretched fabrics. LAFUMA MOBILIER has then joined 1,500 French companies recognized for their artisanal knowhow and excellent manufacturing.

FURNITURE DESIGNED TO LAST

Made in Anneyron is today the guarantee of having control over our design and manufacture by integrating the entire production chain.

We are choosing regional *sourcing* – 68% of the raw materials come from France and 98% from Europe

– with the quality requirements – resistance to UV, weather, abrasion, etc.

RESPONSIBLE PRODUCTION

At LAFUMA MOBILIER we are committed to reducing our environmental impact and are including more and more recycled materials in our production cycle and in our packaging. In the Drôme workshops, no pollutants are released and our R&D teams are working on projects for recycling any production waste.

REPAIRABILITY AT THE HEART OF DESIGN

With some 200 listed products, LAFUMA MOBILIER plans for its collections to stay with you for as long as possible. Easy to dismantle and repairable, our furniture comes with a promise of long life which is good for you and the planet.

ALL OUR PRODUCTS ARE GUARANTEED FOR 5 YEARS

(except for range of accessories)

LAFUMA MOBILIER, LONGTIME® LABELLED PRODUCTS

LONGTIME® is the leading European label for products designed to last. It gives you the assurance that the products carrying the label are reliable and repairable, breaking with obsolescence. The label is awarded to products impartially, after an audit of evaluation carried out by an independent control body. *The products labelled LONGTIME® are identified in the product pages.*
